

Prayer Newsletter October 2020

Thank you for joining us in continuing to pray for the young people across Torbay, and for the school communities that they are a part of. It's fair to say that for today's generation these last few months have been unlike any other, especially in terms of uncertain next steps for young people due to the ever changing circumstances. Now the team have started back after a period of furlough we're beginning to communicate with schools to see what opportunities and what needs there are, so we can assess what we can realistically do. Here are a few ways that you could join us in prayer:

- Wisdom for us as a team as we seek out the best ways to serve young people and school communities despite constantly changing restrictions
- That young people would set the bar high for all of us, making good choices every day by caring for one another and making the best of a difficult situation
- That the new 'teaching bubble' systems work in all their different formats across our schools, and if/when home teaching does need to happen, that all students will be to access the relevant IT and internet to make this possible
- Protection and provision in homes that are struggling to make ends meet; when stress is overwhelming, let there be peace; where current circumstances create fear, let there be hope
- That the good news of Jesus would spring up in young people's hearts all over Torbay... that the seeds we've sown in classrooms, lunch clubs, assemblies, elevators and at all the other opportunities over the years, would take root and bring personal revelation!
- Wisdom for school senior leaders making constant difficult decisions, and peace during this stressful season
- That church communities would be warm welcoming communities for young people and their families, offering kindness, strength, and hope
- That LiNX finances and resources would be sustainable and more supporters would partner with us in regular giving
